

Nanotechnology today

- The world must be understood from an atomic and molecular scale
- Field with a wide variety of job opportunities

INA at Tec

- Resolution of challenges based on real-world issues
- Multidisciplinary education and vision
- Preparation for new technologies

Strategic partners

- CEMEX
- Instituto Catalán de Nanociencias y Nanotecnología
 - Dow Chemical
 - Grupo Allen
- Centro de Investigaciones Energéticas, Medioambientales y Tecnológicas, Madrid
- Nanomateriales S.A. de C.V.
- Innovación y Competitividad S.A. de C.V.

Study abroad

- MIT
- University of Essex
- Southern Methodist University
 - Rice University
- Université de Rennes 1
- Harvard Medical School
- Harvard-MIT Division for Health Sciences and Technology

Specialize

- Development of Nanodevices
- Nanotechnological Scaling and Entrepreneurship
- Innovation and Research in Chemistry and Nanotechnology

Your future

- Industry and enterprises specialized in chemistry, electronics, metallurgy, food, nanotechnology and pharmaceuticals
- Research centers and technology-based companies
- Technology consulting firms

Did you know that...

Tec alumnus José Eric Ortiz Castillo from the Nanotechnology and Chemical Sciences Engineering degree has implemented testing on the concept of using microreactors in the synthesis of gold nanostars with electroosmotic techniques, paving the way for new lines of research in the world of nanotechnology and miniaturization of high-impact laboratories?
